edge of the field, was being torn up and was apparently to be removed. The circular taxiway was to be expanded from the northeast corner of the field to the north. Preparation work, such as cutting of trees, had been done there. **

Twenty DC-3s were parked on the northern edge of the field and fifteen DC-3s on the eastern edge between 10 and 20 April 1950. (1) Three DC-3s practiced formation flying in the morning of 14 April 1950. There was no other flying. Workers employed at the field said that the occupation was reduced to about 350 officers and EM. Expansion work at the field continued.
